

76910 Rohagit[®] SD 15 – Special thickener

Solid content:	29 - 31%
Acid value:	55 - 65
Dynamic viscosity:	5 - 30 mPa.s
Viscosity characteristic in alkaline aqueous solution:	short (not ropy)

Application:

Thickener for dispersion paints, synthetic resin plasters, glues.

Add carefully by constantly stirring !

The viscosity of the solution increases later – the final fastness is not reached until after 12 hours.
